T88W/T88W Pro/T88V Pro Series

Ringing in the smart zone with a new desk phone, the Yealink T88 Series (featuring the T88W, T88W Pro, and T88V Pro) showcases an all-new fashionable design with a slimmer body, dedicated line keys, an emergency button, and antimicrobial materials. Highlighting a spacious, adjustable 7-inch capacitive touch screen, this premium IP phone series combines a smarter user experience, powered by Android 13, with cutting-edge AI audio quality. With built-in Bluetooth 5.0, Wi-Fi 6.0, and support for the BTH88 Bluetooth handset, the T88 Series gives you ultimate wireless flexibility. Bolstered by Yealink's "Three Rings of Security" and a commitment to sustainability, it provides a highly secure, intuitive, and adaptable desktop communication solution to help you lead boldly in your daily work.

Key Benefits

User Friendly

- 7" Adjustable Touch Screen: High-resolution (1024 x 600) display featuring a 30° vertical tilt for optimal viewing angles.
- Advanced UI: Streamlined interface featuring BLF Floating, Accessibility Mode, and seamless Light/Dark themes.
- Modern Build: Slim, antimicrobial body with an invisible hinge, line keys, and an emergency button.
- Powered by Android 13: Delivers unified interaction and a highly user-friendly experience.

Fast & Flexible Connectivity

- Built-in Wireless: Wi-Fi 6.0 and Bluetooth 5.0 with instant "close-to-pair" for fast headset connections.
- Bluetooth Handset: Supports the Yealink BTH88 Bluetooth Handset (standard on T88W Pro and T88V Pro; optional on the standard T88W).
- Expandable: Easily connect up to 3 Yealink EXP55 Expansion Modules to accommodate busy workflows.

Clean Sound & Clear Calls

- Premium Audio: Powerful 3W speaker for robust, professional-grade output.
- AI-Powered Clarity: AI-tuned Noise Cancellation and Optimized Acoustic Shield create an uninterrupted communication environment by filtering out background distractions.

Robust "Three Rings" Security

- Ensures device integrity via secure boot, firmware encryption, and a Trusted Execution Environment (TEE).
- Protects the network with 802.1X authentication, WPA3 encryption, and robust content security policies against script injections.
- Secures your data and media in transit and at rest using TLS 1.3 and SRTP.
- Eco-consciously crafted with Post-Consumer Recycled (PCR) materials and shipped in green packaging.
- Energy Efficient: Includes a power-saving mode to minimize energy consumption during downtime.
